How to Find Remote/Hyflex Classes in Banner

For many traditional courses, students can choose between the on-campus or Hyflex option when you see both sections in the class schedule. While the courses have different CRNs in Banner, they will meet together at the same time and same day.

If you enroll in the on-campus section, you can choose between attending in person or remote learning. If you enroll in the Hyflex section, you will attend remote only but at the same time as your peers in the class. To find a Hyflex section in Banner, look at the Building field.

To find Hyflex/Remote classes:

- Choose **Traditional** in the drop-down search menu.
- Make sure you select **Tulsa** as the campus.
- Look for courses with **Remote, Hyflex** listed in the Building field.
